Product Criteria

1. Certificate of Compliance (C of C)

Supplier shall provide a certification with each shipment to attest that the parts, assemblies, subassemblies, or detail parts conform to the Order requirements. When applicable, the true manufacturer's, lot, batch, date code, and/or serial number must appear on the certification. Certification must contain the following:

- Customer's Order number
- Product name
- Part number
- Name and address of manufacturing or processing location
- Manufacturer's lot, date code
- Quantity and unit of measurement (each, box, case, gallons, etc.)
- Be signed and dated by an official of the company.

2. Test Reports

Supplier shall submit a test report with the shipment that certifies test requirements were in accordance with drawings and/or specifications.

3. Processes and Products

The Supplier will notify the customer of proposed changes in process definition and, will obtain approval from the customer prior to implementing the change. Changes affecting processes, production equipment, tools and programs shall be documented. Procedures shall be available to control their implementation. This statement shall also apply to Supplier designated "critical processes" that have been sub contracted.

4. Government Right of Access

The Government has the right to inspect and test all supplies called for by the contract, to the extent practicable before acceptance. The Government reserves the right to inspect and audit suppliers' facilities. When requested, the Government shall perform inspections and tests in a manner that will not unduly delay the work. Except as otherwise provided in the contract, the Government shall bear the expense of Government inspections or tests made at other than the Supplier's premises; provided, that in case of rejection, the Government shall not be liable for any reduction in the value of inspection or test samples.

5. Counterfeit Clauses Guarantee of Product Source(s)

The supplier shall ensure that only new and authentic materials are used in products delivered to NASA. The supplier may only purchase parts directly from Original Component Manufacturers (OCMs), OCM franchised distributors, or authorized aftermarket manufacturers. Use of product that was not provided by these sources is not authorized unless first approved in writing by NASA. The supplier must present compelling support for its request (e.g., OCM documentation that authenticates traceability of the parts to the OCM), and include in its request all actions to ensure the parts thus procured are authentic/conforming parts.

6. Non-Conforming Material

Per this requirement the customer grants no authority to disposition product or process nonconformance's to the Supplier or its sub-tier suppliers. Repair is not allowed under this clause.

Nonconformance's shall be reported to the customer as soon as it is detected and determined not to be re-workable and may be salvageable. When notification is required, notification shall be within 3 working days after the nonconformance is discovered. This requirement applies to all procurements.

7. The Contractor shall include the following statement in all subcontracts and purchase orders placed by it in support of this contract, without exception as to amount or subcontract level:

"FOR USE IN HUMAN SPACE FLIGHT; MATERIALS, MANUFACTURING, AND WORKMANSHIP OF HIGHEST QUALITY STANDARDS ARE ESSENTIAL TO ASTRONAUT SAFETY.

IF YOU ARE ABLE TO SUPPLY THE DESIRED ITEM WITH A HIGHER QUALITY THAN THAT OF THE ITEMS SPECIFIED OR PROPOSED, YOU ARE REQUESTED TO BRING THIS FACT TO THE IMMEDIATE ATTENTION OF THE PURCHASER."
